

## PicoCTF - where are the robots Writeup

Open (<https://jupiter.challenges.picoctf.org/problem/36474>) in Firefox.

Since the title of the challenge mentioned “robots”. Which mean there was something related with robots.

In websites, there’s a file called “robots.txt” used to hide certain directories from being indexed by Google.

Thus I tried to visit (<https://jupiter.challenges.picoctf.org/problem/36474/robots.txt>).

I tried to follow any hints available in front of me. So I visited (<https://jupiter.challenges.picoctf.org/problem/36474/477ce.html>)

And there u go.
