

PicoCTF - WebDecode Writeup

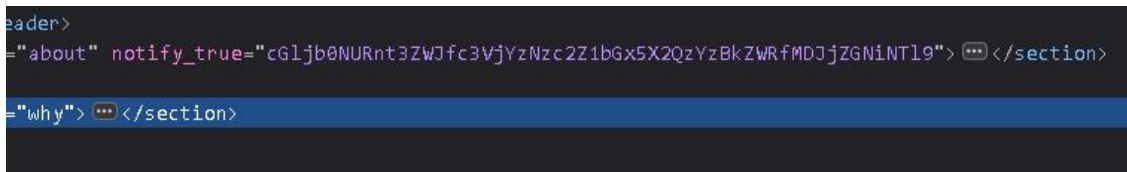

Run instance

Open (<http://titan.picoctf.net:51451/>) in Firefox.

Go to "ABOUT" page.

Inspect the page.

possible-flag:

cGljb0NURnt3ZWJfc3VjYzNzc2Z1bGx5X2QzYzBkZWRFMDJjZGNiNTl9

You'll find a possible encoded flag.

I asked GPT to decode the flag.

GPT said CTF often use Base64 to encode its flag.

So I tried to decode the flag using Base64

And there you go.

Flag: picoCTF{web_succ3ssfully_d3c0ded_02cdcb59}
